

Google Fiber Huts in Durham

9.2.2015

Seven of the Google Fiber huts in Durham will have brick siding and a pitched roof (a combo of huts below)

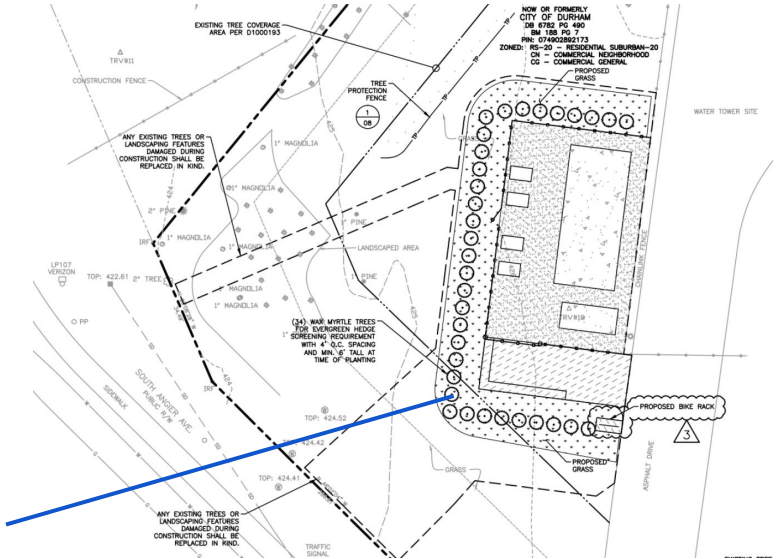

Closer look at the specific color of brick siding

One Google Fiber hut, located by the water tower on 4105 Angier Ave., will have the standard mocha exterior

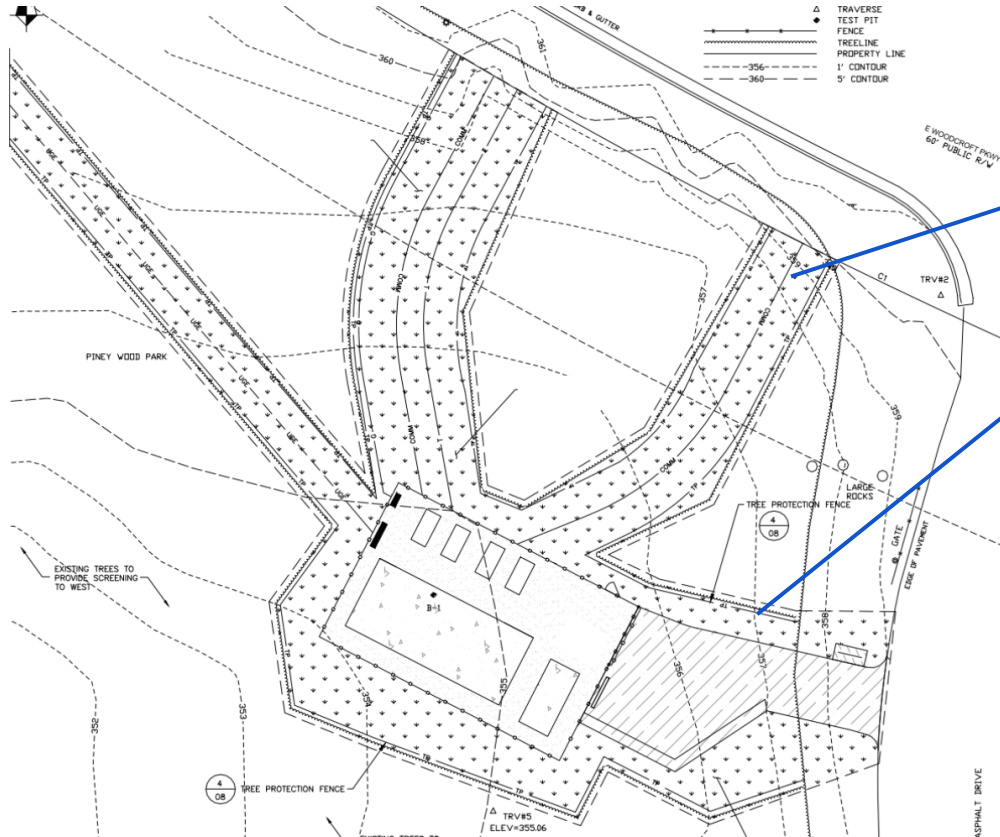

Hut will be surrounded by 34 New Trees (Southern Wax Myrtle) - 6' in height for vegetative screening

Confidential & Proprietary

Proposed Landscaping for Hut#124 (400 E. Woodcroft Pkwy)

Fiber Corridors to be bored. No tree removal to occur in these areas.

Proposed tree fence

Per section 8.3.1.B.2 of the City of Durham Unified Development Ordinance, the site is exempt from tree coverage requirements because it is zoned RS-20 and is not being clear-cut or mass-graded.

Per section 9.6.2 of the City of Durham Unified Development Ordinance, a minimum of one street tree per every 40' of street frontage is required. Existing tree coverage meets this requirement.
